SKILLS

UX Research · User Flow · Prototyping · UI Design · UX Writing · Analytics

TOOLS

Ps · Ai

SELECTED IMPACT

~30% Reduced design-to-handoff time through design system standardization

~10% Improved conversion & reduced 5% drop-off via UX audit & flow optimization

~8% Increased lead conversion via IA, CTA, and form-flow improvements

NGUYỄN THỊ TRÚC MAI VY

Product Designer

Healthcare · B2B · eCommerce
End-to-end · Data-informed

Product Designer | Complex Flows, Healthcare Platforms, Conversion UX

SUMMARY

Product Designer with **3+ years of experience** designing complex web and mobile products across healthcare, B2B, eCommerce, and service platforms. Strong in **multi-role flows, information architecture, conversion-focused UX, and design systems.** Led end-to-end design across onboarding, booking, account, order, and admin experiences, partnering closely with product, business, and engineering teams to turn complex requirements into **clear, scalable, and measurable product outcomes.**

CORE EXPERTISE

UX Strategy · Information Architecture · Conversion Optimization · Multi-role System Design · Design Systems · Data-informed UX

PROFESSIONAL EXPERIENCE

FULL-TIME EXPERIENCE

Bin Corporation Group — Full-time — 04/2025 – Present

- Led end-to-end product design for web and mobile platforms across business formation, legal, visa, eSIM, and B2B services.
- Redesigned key journeys including onboarding, lead capture, order tracking, and account management to improve clarity, reduce friction, and support conversion goals.
- Built and standardized reusable design patterns within the design system, reducing design-to-handoff time by approximately 30%.
- Conducted UX audits and optimization initiatives that contributed to roughly 10% conversion uplift and a 5% drop-off reduction.

Medpro — Full-time — 05/2023 – 04/2025

- Led product design across a healthcare ecosystem including patient booking web/app, doctor app, landing pages, and hospital kiosk experiences.
- Designed and optimized core flows: appointment booking, video consultation, appointment management, and app-to-doctor-to-kiosk journeys.
- Used heatmaps, click tracking, and conversion data to identify friction points and improve booking and form-completion performance.
- Balanced patient, doctor, and operational needs across multi-touchpoint service experiences in a high-complexity healthcare environment.

CONCURRENT PART-TIME / CONTRACT EXPERIENCE

Tamvie — Part-time — 10/2025 – 03/2026

- Designed healthcare product experiences for users, doctors, and admins, with a focus on operationally complex workflows.
- Improved information architecture and interaction flows for high-complexity functions across kiosk, mobile, and doctor portal.
- Strengthened cross-platform continuity to make task completion more seamless across different user roles and service channels.

Eco - HHB — Part-time — 04/2024 – 12/2024

- Designed an eCommerce platform serving both customers and vendors/suppliers, covering purchase flows, product management, and order workflows.
- Standardized components and visual patterns to improve consistency and support smoother design-to-development handoff.
- Strengthened the experience architecture for multi-role commerce journeys across buying and supply-side users.

Freelance — Freelance — 2022 – Present

- Designed landing pages across beauty, dermatology, visa, education, and medical equipment categories with conversion-oriented structure.
- Delivered adaptable UI solutions across industries and fast-moving projects.
